

RCII – Navigation Basics

The screenshot shows the RCII interface with several annotations:

- Refresh RCII:** Points to the flame icon in the top left of the blue navigation bar.
- Main Index:** Points to the Analytics icon in the top navigation bar.
- Copied Images:** Points to the Scratchpad icon in the top navigation bar.
- Create new versions of the RCII with or without the pre-calculated missing data threshold:** Points to the Advanced Options icon in the top navigation bar.
- Navigate to different tiles without returning to main menu:** Points to the Exit icon in the top right of the navigation bar.
- Choose between 6 main menu tiles:** Points to the six main menu tiles (Rankings, Maps, Country Profile, Charts, Rank by Variable, Settings).
- Collapse or delete a version of the index:** Points to the collapse and delete icons in the top right of the workspace area.

The workspace area contains the following tiles:

- Rankings:** score/rank data tables
- Maps:** map-based visualisations
- Country Profile:** country profile tools
- Charts:** charting tools
- Rank by Variable:** variable-based ranking tool
- Settings:** index parameter settings

A dynamic, holistic tool that allows users to undertake insightful, clinical diagnoses of countries and international topics.
